

In the **Warframe** online game published by **Digital Extremes**, a reward is earned on the first login of a day, and the rewards increase according to the amount of days logged in.

The objective of this project is creating a table (PDF file) that shows how the rewards increase with login days.

Only the rewards that increase with login days are listed; there are other possible rewards.

Some Actual Rewards

Special	Only at login day 5, a Special reward of 25.000 Credits and 1.000 Endo is actually earned.
Milestone	At login day 50 and every 50 logins after, a Milestone reward is actually earned.
Evergreen	At login day 1.050 and every 50 logins after, an Evergreen reward is actually earned.

Important Information

Single resources	Common: Gallium / Morphics / Mutagen Mass / Neurodes / Orokin Cell / Tellurium Rare: Relic Pack / Aya
Double resources	Common: Detonite Ampule / Fieldron Sample / Mutagen Sample / Neural Sensors
Booster	Common: Affinity / Credit / Resource / Resource Drop Chance
Evergreen Choices	A - 3 Forma / 3 Exilus Warframe Adapter / 4 Weapon Slots B - 50.000 Kuva / 7-Day Boosters (Affinity, Credit, Resource, Resource Drop Chance) / 30.000 Endo C - 3 Rifle Riven / 3 Melee Riven (2 Melee + 1 Zaw) / 3 Secondary Riven

The Milestone rewards are not listed here because many of the rewards are not in fixed login days.

"Login period" is "Login days" converted to a continuous period (**years**, **months** and **days**).
